

BURIAL OF THE DEAD

The Task That Now Confronts the Authorities of the Village of Collinwood.

(By Associated Press.)

CLEVELAND, March 5.—Twenty-four hours after the disaster which caused the death, approximately, of one-third of the school children of North Collinwood, the death toll numbered 164. Of these, 137 were identified at the Lake Shore morgue, while 27 bodies remain there in a condition of mutilation, probably forever beyond recognition. The work of digging in the ruins of the Lakeview school house in further search for remains of children still missing, began at daylight and it is believed tonight that all bodies that can be removed from the ruins have been taken out. The burial of the dead is now the task confronting the authorities of the little village. The idea of having a public funeral of all the dead has been abandoned, though it is probable that where it can be done, the bodies will be grouped in one church.

High Speed Attained By Italian in Auto

(By Associated Press.)

ORMOND, Fla., March 5.—Driving his sixty-horse power Italian car for three hundred miles at an average rate of seventy miles an hour, Emanuel Cedrino today broke the world's record for an average speed for that distance. The car was admirably handled by the Italian driver, and made some of the laps at a rate of eighty miles an hour. Cedrino won the one event set for today, a 250-mile race. The time for the distance was three hours, 21 minutes, 27.2-5 seconds. Then he kept on, making three hundred miles in three hours, 53 minutes, 44 seconds.

ADOPT TONOPAH SCALE OF WAGES

(Special to the Bonanza.)

GOLDFIELD, March 5.—The Miners' Union was voting all day on the proposition of the adoption of the Tonopah scale of wages. The scale was adopted by a vote of 455 to 256.

Now that this has been done, nobody seems to know what effect it can have on the situation, for the reason that as far as is known there is nobody here to give work to the miners under the new schedule, for it is in conflict with the scale adopted by the Mine Owners' Association, and the association, through its executive committee, has declared that there will be no recession from the stand taken in the beginning.

The union declared that there were in the neighborhood of a dozen leases and mines that would be thrown open to their work, but it is said that all these together could not employ fifty men. It is thought, on the other hand, that the action of the union today may be an entering wedge to a settlement.

The regulars leave on Wednesday for the coast, and the State police are already installed, and ready for business. No change in the situation is apprehended at the departure of the soldiers.

SEARCH PUPILS FOR MISSING COIN

(By Associated Press.)

SAN FRANCISCO, March 5.—In order to disclose the whereabouts of a missing \$5 gold piece, Francis Crofts and Mrs. Cox, teachers of the Lowell High School, searched the persons of fifty-five pupils of both sexes today and administered an oath under which they questioned the boys and girls regarding their knowledge of the money. Lottie Rocard, one of the pupils, placed a purse containing the coin on the desk and left the room. Upon her return she reported to the teachers that the coin was removed during her absence. A search was made, but the money was not found. Frank Morton, principal of the Lowell High School, was told tonight of complaints that had been received from parents regarding the search and was asked to confirm it. He said he had authorized the search and that he thought the proceedings were defensible, also that he was prepared to defend his part in it.

CASHIER CUSHMAN GOLDFIELD WITNESS

(Special to the Bonanza.)

GOLDFIELD, March 5.—E. H. Cushman, cashier of the State Bank and Trust Company at Tonopah, was a witness before the Grand Jury this afternoon, and was questioned as to the affairs of the institution over which he has charge. The inquisitorial body is searching for information which may lead to the indictment of officials of the defunct bank, and through Mr. Cushman endeavored to make a connection of the various branches. It is claimed for the Goldfield branch that no one connected with it had any knowledge of the condition of any of the other branches, and could not tell whether they were solvent or insolvent. Cashier Davis seems to be the only man who had that information, as all the other cashiers were under his authority. The Grand Jury is proceeding

BRYAN DAY IN NEBRASKA

Democratic State Convention Passes Resolutions and Endorses Platform Framed by Presidential Candidate.

(By Associated Press.)

OMAHA, Neb., March 5.—This was "Bryan day" in Omaha, for that matter it was "Bryan day" throughout the State. With the Democratic State convention as a nucleus, party leaders from every county and practically every primary district in the commonwealth gathered here to pledge allegiance to the Presidential aspirations of Mr. Bryan, and to consider means for furthering his interests before the Democratic national committee at Denver next July.

The enthusiasm which was prevalent throughout the day broke out in tumultuous ovations when, at the beginning of the evening session, the platform committee presented resolutions declaring Bryan to be an ideal American citizen, the ideal Democrat, and that the delegates chosen be instructed to vote as a unit for the nomination of Bryan for the Presidency. The platform, as a whole, was largely Bryan's, and reflected the leader's views as to what should form issues upon which the party should go before the country next summer.

The platform advanced little that was new. The Fowler and Aldrich currency bills were condemned. An emergency currency, it was declared, should be issued, and controlled by the Federal government. An immediate revision of the tariff was emphasized as a necessity. The "stand pat" policy was ridiculed in terms that made the delegates shout with laughter. A straight declaration in opposition to Asiatic immigration and a clause favoring an eight-hour working day was decidedly popular. So, too, were paragraphs favoring an extension of irrigation and reclamation projects. One of the well applauded clauses was that dealing with anarchy.

Delegates at large to the national convention and from six Congressional districts were chosen.
